NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

* * * * *

I. GENERAL INFORMATION (Rule R647-3-104)

1. Name of Mine: Honeycomb Mine
2. Name of Operator/Applicant: Honeycomb Mining Associates, LLC.
Company () Corporation () Partnership (X) Individual ()
3. Permanent Address: Box 7 B, Hannah, UT 84031
City: Hannah State: UT Zip Code: 84031
Telephone Number: (435) 848 5336

4. Ownership of Land Surface:

Private (Fee) ☐ Public Domain (BLM) ☐ National Forest (USFS) ☒
State Trust Land/School Sections ☐ State Sovereign Lands ☐
Other (please describe): _____

Name _____	Address _____
Name _____	Address _____
Name _____	Address _____
Name _____	Address _____

5. Ownership of Minerals:Private (Fee) ☐ Public Domain (BLM) ☐ National Forest (USFS) ☒State Trust Land/School Sections ☐ State Sovereign Lands ☐

Other (please describe): _____

Name Honey Creek mining Address Box 7 B Hanna, Utah 84031

Name _____ Address _____

Name _____ Address _____

Name _____ Address _____

Utah Mining Claim Number(s): Blind Stream 5-11

Utah State Lease Number(s): _____

Name of Lessee(s) _____

6. Have the above surface and mineral owners been notified in writing?

Yes ☒ No ☐

If no, why not? _____

Please be advised that if State Trust Lands are involved, notification to the Division of Oil, Gas and Mining alone does not satisfy the notification requirements of Mineral Leases upon State Trust Lands. Exploration or mining activity on State Trust Lands requires a minimum of 60 days notice to the Trust Lands Administration prior to commencing any activities. Please contact the School Institutional Trust Lands Administration (SITLA) at (801) 538-5508 for notification requirements.

7. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes ☒ No ☐II. PROJECT LOCATION & MAP (Rule R647-3-105)

1. Project Location (legal description):

County(ies): Duchesne

* 1/4, of * 1/4, of * 1/4: Section: 28 Township: 2N Range: 8W *see accompanying claim map

1/4, of 1/4, of 1/4: Section: _____ Township: _____ Range: _____

1/4, of 1/4, of 1/4: Section: _____ Township: _____ Range: _____

Utah
Special
Meridian

2. A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also plot and label any pre-existing disturbances in the immediate vicinity that he is not responsible for.

III. OPERATION PLAN (Rule R647-3-106)

1. Type of mining: Surface ☒ Underground ☐
2. Mineral(s) to be mined: fibrous gem calcite
3. Provide a brief description of the proposed mining operation and onsite processing facilities. We are using an excavator (see photo) to excavate and load a fractured, well-exposed vein with little surface vegetation. This coming year we may need to quarry the material in addition to excavation, but we do not anticipate blasting the material

We will move parts of the existing roads onto bed-rock and re-claim the portions of the roads across meadows.

☒ New Road(s): Length approx. 2000 (ft) Width 12 (ft)
☐ Improved Road(s): Length in bed place (ft) Width _____ (ft)

Total project surface acreage to be disturbed: 3 1/2 acres or less (acres)

Proposed startup date of project (month, year) June 1, 1998

Proposed completion date of project, if known (month, year) unknown

IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

1. Keep the mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.

9. Reclaim all roads that are not part of a permanent transportation system.
10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.

V. **VARIANCE REQUEST** (Rule R647-3-110)

Yes ☐ No ☐

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).

<u>Item Number</u>	<u>Variance Request Justification</u>
_____	_____
_____	_____
_____	_____
_____	_____

VI. **SIGNATURE REQUIREMENT**

I hereby commit to conduct mining operations and to reclaim the aforementioned small mine as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.

Signature of Operator/Applicant:

Darrell W. North Jeffrey D. Keith

NOTICE OF INTENTION TO OPERATE

Ranger District <i>Buchanan</i>	Date Received <i>2-6-97</i>
State <i>Utah</i>	County
Type of Claim or Claims Lode <input checked="" type="checkbox"/> Tunnel Site <input type="checkbox"/> Mill Site <input type="checkbox"/> Placer <input type="checkbox"/>	Operation New <input checked="" type="checkbox"/> Continuing <input type="checkbox"/> Reactivating <input type="checkbox"/>

NOTE: (INSTRUCTIONS TO OPERATOR. Please complete in as much detail as possible. Use maps and sketches where appropriate. Additional sheets can be used if necessary. Completed information should be furnished to District Ranger's office.) To the extent authorized by law, this information will be held confidential. As an agency of the Federal Government, the Forest Service is required to comply with the Freedom of Information Act

NOTICE OF INTENTION TO OPERATE

Notice is hereby given that the undersigned intends to conduct prospecting, mining, or milling operations, etc., on the claim(s) and/or unclaimed Federal lands as indicated below.

NAME OF CLAIMS ON WHICH OPERATIONS WILL BE CONDUCTED	NAME OF OWNER AND ADDRESS	LOCATION			LOCATION
		Section	Township	Range	DATE
BLINDSTREAM 1 2, 3, 4	HONEYCOMB MINING ASSOCI.	28	2 N	8 W	10-18-96
	2370 So. 25th East #7				
	SALT LAKE CITY UTAH 84104				
UNCLAIMED LANDS ON WHICH OPERATIONS WILL BE CONDUCTED:		None			////////////////////

ACCESS - Describe the type and standard of the proposed means of access and the means of transportation to be used (such as 4-wheel drive vehicle, tractor, pickup, etc.). Furnish a map showing the proposed of access and relationship to claims or unclaimed lands noted above.

NOTE: Construction, reconstruction, or restoration of a road as a means of access across National Forest System lands or unpatented mining claims will be authorized separately by issuance of a special use permit. (If an operating plan is required, it must be approved in writing by the authorized officer prior to the issuance of the special use permit.)

ACCESS WILL BE ATTAINED THROUGH IMPROVED & UNIMPROVED ROADS LEADING UP TO AND FOLLOWING THE LEFT FORK OF THE BLIND STREAM ROAD INTO THE AREA INDICATED ABOVE.

INTO THE AREA INDICATED ABOVE.
TRANSPORTATION VEHICLES WILL BE 4-WHEEL DRIVE VEHICLES, PICKUPS and
HAULING EQUIPMENT SUCH AS DUMP TRUCKS.

THE LEFT FORK UNIMPROVED ROAD IS IN NEED OF MINOR REPAIRS BUT IS BASICALLY ADEQUATE FOR USE BY OUR VEHICLES & EQUIPMENT.

PROPOSED OPERATION - Describe proposed surface disturbing activities, such as backhoe, trenching, drill road construction, tunnel site development, settling ponds, bulldozer exploration, etc. Furnish a map showing location of proposed operations and relationship to claims or unclaimed lands noted above.

NOTE: Work roads within the claims will be covered by the operating plan.

THE OPERATION WILL BE FOCUSED ON ROCKY OUTCROPPINGS REQUIRING USE OF BACKHOE & FRONT LOADER, ALONG WITH A DUMP TRUCK OR SIMILAR EXCAVATION EQUIPMENT.

DOGM RECEIVED FROM USFS-VERNAL 9/18/97 *adg*

ENVIRONMENTAL PROTECTION MEASURES - Describe measures to be taken to protect surface resources and reclaim the disturbed areas.

NOTE: Operations, including access, shall be conducted so as to minimize adverse environmental impacts on National Forest surface resources.

EXCAVATIONS WILL REQUIRE LITTLE OR NO TREE REMOVAL, BUT SHOULD IT BECOME NECESSARY, APPROVAL WILL BE OBTAINED BY THE FOREST SERVICE PRIOR TO REMOVAL. RECLAMATION WILL BE DONE UPON COMPLETION OF MINING TO MAINTAIN A SAFE & ENVIRONMENTALLY APPROPRIATE LANDSCAPE. WHERE MATERIAL HAS BEEN DISTURBED BUT NOT REMOVED, IT WILL BE COVERED & USED TO CREATE AN APPEARANCE OF A NATURAL SLOPE TO CONFORM TO THE IMAGINATION OF THE AREA. SEE BELOW

PERIOD OF OPERATION - Period or periods during which operations, including road work, and use will take place.

Road Work: JUNE, 1997

Other Operations: JUNE THROUGH OCTOBER 1997

FOREST SERVICE EVALUATION

NOTICE TO OPERATORS:

1. Approval of this notice of intent does not constitute certification of ownership to any person named as owner herein.
2. Approval of this notice of intent does not constitute recognition of the validity of any mining claims named herein, or of any mining claim now or hereafter covered by this plan.
3. Antiquities Act of 1906 (P.L. 59-209). "That any person who shall appropriate, excavate, injure, or destroy any historic or prehistoric ruin or monument, or any object of antiquity, situated on lands owned or controlled by the Government of the United States, without the permission of the Secretary of the Department by the Government having jurisdiction over the lands on which said antiquities are situated, shall, upon conviction, be fined in a sum of not more than five hundred dollars or be imprisoned for a period of not more than ninety days, or shall suffer both fine and imprisonment, in the discretion of the court."
4. Approval of a notice of intent does not constitute permission of the Secretary so as to relieve the operator from criminal prosecution under the Antiquities Act.

A special use permit is required?

A bond in the amount of \$ _____ in the form of cash or surety to assure reclamation as described under "Environmental Protection Measures" is required.

No bond is required.
